Profile

MCA graduate with expertise in MEAN stack, React, Next.js, and Tailwind CSS. Skilled in developing scalable web applications, integrating RESTful APIs, and creating intuitive user interfaces. Passionate about problem-solving, performance optimization, and delivering high-quality digital solutions. A collaborative team player committed to innovation and excellence.

Education

Master of Computer Application (MCA)

APJ Abdul Kalam Technological University

2022 – 2024 | Kozhikode, India

Bachelor of Computer Application (BCA)

University of Calicut

2019 – 2022 | Malappuram, India

Projects

Doctor Appointment Management System

- The Doctor Appointment Management System, built with the MEAN stack, streamlines hospital appointment booking. It features three main sections: Appointments, Doctors, and Patients.

Bank App

- Developed a robust, secure banking application utilizing Angular, TypeScript, and JSON Server, enhancing user experience with a responsive Angular Material UI.

ToDoApp

- Developed a task management application using Angular, HTML, and CSS, enabling users to create, edit, prioritize, and track tasks with an intuitive interface, enhancing user experience and productivity.
- Implemented real-time collaboration features, allowing users to share tasks and receive updates, which improved team communication and task completion rates by 40%.

Smart licence

- Developed a vehicle safety system using Python (Flask), Dart (Flutter), and SQLYog with RFID-based authentication, reducing unauthorized access by 50%. Integrated alcohol detection sensors with Arduino, achieving a 100% detection rate in trials.

Languages

English | Malayalam | Hindi

Professional Experience

Full Stack Web Engineer

Com Digital

Mar 2024 – present | wayanad, India

- Developed a Next.js web app using Tailwind CSS, increasing user engagement by 25% through optimized design and improved SEO strategies.

Internship/Course

MEAN Stack Intern

Inmakes Infotech Pvt. Ltd

Jun 2024 – Sep 2024 | Kochi, India

- Developed a MEAN stack web app, increasing user engagement by 25% through optimized design and backend.

Live Projects

GlideAway Migration Service

- Designed and developed a responsive web page for a Visa Services business using HTML, Tailwind CSS, and custom styling.

Glideway tourism

- A dynamic travel platform for seamless tour planning and booking, featuring a user-friendly interface and optimized performance for smooth navigation and engagement.

Legend Intermediate

- Designed and implemented responsive UI components using Tailwind CSS for an interactive product showcase.

Skills

- Frontend:** Angular, HTML5, CSS3, JavaScript (ES6+), TypeScript
- Backend:** Node.js (Improved backend performance by optimizing APIs by 15%), Express.js
- Database:** MongoDB (Handled databases with 100K+ records, optimized queries to reduce read times by 20%), SQLite
- Frameworks/Tools:** Flask, Django, Flutter, Tailwind CSS, Git
- APIs:** RESTful APIs (Designed and integrated 10+ APIs to enhance functionality)
- Agile Methodologies:** SCRUM

Personal Skills: Project Management, Problem Solving, Effective Communication, Detail-Oriented
